QUALIFICATIONS

Web Development
- Able to code web applications from the ground up using HTML, CSS, & JavaScript.
- Has a working proficiency of Bootstrap and React along with fundamental understanding of responsive design concepts, cross-browser development, and API implementation.

HTML Email Development
- Able to code responsive HTML emails with proficiency in Photshop and Figma.
- Working knowledge of email testing that renders across 80+ email clients.

Customer Service
I have 10+ years of customer service/call center experience that has allowed me to not only be able to effectively communicate with clients, but with a team as well. I have developed amazing soft skills and people skills throughout the years. These skills will ensure that I am able to establish necessary requirements and complete projects in a timely and professional manner, both solo and as apart of a team.

SKILLS

HTML5	React
CSS3	Node.js
Sass	JavaScript
Tailwind CSS	Photoshop
Bootstrap	Figma

FEATURED PROJECTS

Treux Theme
A Miami inspired bright, yet dark theme for Visual Studio Code. Published to Visual Studio Marketplace.

Weather App
A beautiful aesthetic weather app built with HTML, CSS, & JavaScript. Data pulled from Open Weather Maps API.

EDUCATION

Web Development Bootcamp, Eleven Fifty Academy, Indianapolis, IN
SEPTEMBER 2021 — DECEMBER 2021
